1. What is corporate governance?

Corporate governance is the system of rules, practices, and processes by which a company is directed and controlled — it defines how power is distributed and exercised among shareholders, the board of directors, management, and other stakeholders, and how the company is held accountable for its decisions. Good governance exists to protect the interests of shareholders and other stakeholders, reduce the risk of mismanagement or fraud, and build the trust that markets and society need to keep investing in and dealing with a company.

Sample of the practice examination (Question One of Five)

Note on format. The full paper includes a complete practice examination laid out the way a real KASNEB CS paper is laid out — timed, five compulsory 20-mark questions — so you can rehearse the exact exam format before sitting the real thing. This is an original practice paper, **not a reproduction of any actual KASNEB past paper.**

CS INTERMEDIATE LEVEL — CORPORATE GOVERNANCE AND ETHICS (PRACTICE PAPER)

TIME ALLOWED: 3 HOURS

Instructions to candidates: Answer ALL FIVE questions. Each question carries 20 marks. Show all reasoning clearly.

QUESTION ONE
