

Leadership and Management — PREVIEW

Course: CPA — Certified Public Accountant | **Level:** Advanced Level (CA31 — Compulsory Paper)

This is a free preview. It shows the unit overview and exam-paper layout used throughout the full document, plus the introduction section.

Unit overview

Unit description. This paper builds the leadership and management judgement expected of a senior finance professional — moving beyond operational management into strategic leadership, organisational behaviour, and the judgement-heavy skills that distinguish a senior finance leader from a competent technician.

Prerequisite. A candidate attempting this paper is expected to have cleared CPA's Foundation and Intermediate levels, with a solid grounding in general management principles already established.

Learning outcomes. A candidate who passes this paper should be able to explain the role of strategic leadership, apply organisational behaviour concepts, evaluate approaches to organisational change, apply strategic HR concepts, evaluate ethical leadership dilemmas, and apply negotiation/conflict-resolution principles. (*Full learning outcomes list in the full version.*)

Contents (full paper)

1. Strategic leadership versus operational management — *included in this preview*
2. Leadership theories relevant to senior roles — full version only
3. Organisational culture — full version only
4. Organisational behaviour — individuals, groups and teams — full version only
5. Managing organisational change — full version only
6. Strategic human resource management — full version only
7. Ethical leadership and corporate social responsibility — full version only
8. Negotiation and conflict resolution — full version only
9. Full worked question — diagnosing a team performance problem — full version only

10. Practice examination — KASNEB-style paper — *Question One shown below; Questions Two–Five full version only*
 11. Marking guide — model answers to the practice examination — full version only
 12. Exam technique and revision checklist — full version only
-

1. Strategic leadership versus operational management

Operational management focuses on efficiently running existing processes. **Strategic leadership** operates at a different altitude: setting long-term direction, shaping culture, and making judgement calls under genuine uncertainty, where a single "correct" technical answer often doesn't exist.

Sample of the practice examination (Question One of Five)

Note on format. The full paper includes a complete practice examination laid out the way a real KASNEB CPA paper is laid out — timed, five compulsory 20-mark questions — so you can rehearse the exact exam format before sitting the real thing. This is an original practice paper, **not a reproduction of any actual KASNEB past paper.**

CPA ADVANCED LEVEL — LEADERSHIP AND MANAGEMENT (PRACTICE PAPER)

TIME ALLOWED: 3 HOURS

Instructions to candidates: Answer ALL FIVE questions. Each question carries 20 marks. Show all workings clearly.

QUESTION ONE

- (a) Distinguish between strategic leadership and operational management. (8 marks)
- (b) Distinguish between transformational and transactional leadership. (8 marks)
- (c) Outline ONE limitation of trait theories of leadership. (4 marks)

(Total: 20 marks)

Questions Two, Three, Four and Five — plus the full marking guide with model answers to all five questions — are in the full version.

Unlock the full paper

The complete version includes leadership theories, organisational culture, organisational behaviour, managing change, strategic HR management, ethical leadership, negotiation and conflict resolution, a fully worked team-diagnosis question, the complete five-question KASNEB-style practice examination with a full marking guide, and an exam technique and revision checklist.
